Community College Highlights

On Tuesday, Sept. 29 a Virtual Legislators' Panel was held for Iowa community college faculty, staff, and students from around the state. The panelists included senators, representatives, and candidates from all over Iowa. Students were able to ask the panelists questions during the Zoom Webinar.

The Legislators' Panel was just one of the many events that have been planned by the student activities coordinators of Iowa's community colleges this Fall. They have banded together to continue doing what they do best – serve the students! The student activities staff from all of the colleges have been and will continue to partner together to make sure community college students still get to enjoy their college experience with fun and enriching events – even if that means having to pivot and offer them a little differently! Many fun and innovative virtual activities and events have already been offered this Fall and many exciting virtual activities and events are still to come during the second half of the Fall semester and Spring 2021!
